

# LJR Photography

*LJR photography is a professional photography website with photos taken by Luke Rokop, showing the beauty of the state of Michigan and the people who call it home.*

LJR Photography is a one stop shop for anything related to purchasing and viewing pictures taken in Michigan. We have a selection like no other, from landscapes, to portraits and astrophotography, we will do what we can to meet all our customers' photography needs. Not only can our customers view our photo library, but they can also fill out a form to have specific pictures taken or have photos taken of themselves. As customized experiences are a highlight of our model, we believe this sets us apart from other photographers and competitors in the region.
